At Quality Physician Services, we PARTNER with medical practices to:

- ♦DECREASE Overhead & Expenses through Proven Processes & Technologies
- ♦CAPTURE REIMBURSEMENTS through Expert Coding, Billing and Collections
- ♦BOOST PRACTICE INCOME with Alternative Revenue Sources In-House
- ♦INCREASE PATIENT SATISFACTION from Reduced Wait Time, Comprehensive Services & Efficient Protocols

HOW QPS WORKS WITH MEDICAL PRACTICES

Your practice is your business. You are the expert in caring for the health and well-being of your patients. We are experts on the business aspects of medical practices. We work together in partnership with our medical practice clients, sharing both the risks and rewards resulting from greater efficiencies and reimbursements. Although some clients engage us in a consulting and project-based role, most partner with us on a revenue sharing basis to provide a full spectrum of services. We also have programs available where we can train practice staff to continue to best business practices that we have utilized as a service provider.

QPS helps physicians manage the business aspects of their practice so they can focus on quality patient care. Our primary goals are: Patient Satisfaction, Operational Efficiency and Optimal Reimbursements and Revenues.

QPS SERVICES

QPS provides a wide spectrum of practice services. Clients choose to engage us as an outsourced partner, a service provider, or on a project basis. We will also train and empower client staff to leverage our proven best practices in-house. More detailed information about each of our services is available at www.QualityPhysicianSvcs.com.

ABOUT QPS

QPS was started in 1998 by a group of medical and business professionals with years of hands-on experience in clinical environments. "When we were working directly for medical practices and hospitals, we realized that there were very few practice services groups who could identify with the real day-to-day activities of patient care. We had a vision to put our proven experience of managing medical practices to work and formed QPS," explains Billy Abbate, QPS COO.

From finance to coding, to human resources and practice flow, Quality Physician Services' team of professionals provide the necessary expertise to maximize the business aspects of a practice, enabling physicians to focus on the best patient care.
